WHY DID I MAKE FunkySoulDrums?

I wanted to create a drum loop library in the style of funk/jazz artists like SouLive, John Scofield, Stanton Moore, Galactic and Medeski Martin & Wood. I do have smaller jazz drums and washy cymbals, so I decided to see if I could get “that” sound. I was happy with the test recording so I moved forward with the project. I hope you enjoy my drum loops and they spark your creativity. I had a blast making them!
